**Workshop title:** *Local Workshop Series: Climate Change and Climate Action*

**Workshop description:** The Local Workshop Series for 2022–2023 will provide the opportunity for members to explore the sources, impacts, and solutions for climate change. Members will be provided with practical applications, resources, ideas, and supports to best deliver curriculum expectations that incorporates climate change and environmental education.

Participants are asked to bring their own devices (e.g., phone, Chromebook, tablet) if possible.
